DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) that was submitted on 11/01/2004 with the application is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

Claim Objections

Claim 1 is objected to because of the following informalities: The reference to the "second" retaining means is not preceded within the claim. Only the first retaining means is referenced, then both are mentioned in line 13 on the claim listing provided. Appropriate correction is required.

Claims 6-11 are objected to under 37 CFR 1.75(c) as being in improper form because claims 6-11 depend from the multiple dependant claim 5 (which depends from claims 1 or 4). Claim 6 is an improper multiple dependant claim because it depends from the multiple dependant claim 5. See MPEP § 608.01(n). Accordingly, the claims 6-11 are not being further treated on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3763

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-5, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Matkovich (5,868,433). Matkovich discloses a connector assembly (Figure 61), which comprises a first fitting and second fitting for liquid transfer. Two deformable interlocking tabs (160 and 158) that irreversibly interlock with the second assembly (200) are present. A lip (249) and recess (Figure 1, 100) are present wherein the lip section is compressible (col 8, ln 58) between the first fitting (100).
